New EU Strategy on Children’s Rights: A chance for Eurochild and children to give their views

Valeria Setti, EC Coordinator on Children’s Rights

Child consultations are not always possible in the time of COVID!

This is a work-in-progress!

We’ve been talking with various groups & national bodies!

We identified umbrella organisations... including Eurochild!

These groups have complementary skills in specific areas!

Children are also part of Eu Politics & democratic life!

Children will feed into the strategy...

...and what about children & climate change?

Thank you for your help and learnings!
